

## **Animal Head**

**(Greb)**

I have got an animal head  
And my head – my head can talk  
That's not all: if it had legs  
I do believe my head could walk

Don't come too close: I may bite  
Or maybe just sniff your butt  
Rake and tear – claws and teeth  
Or fall into a pheromone stut

**(Chorus 1)**

Animal head on top of me  
Animal head on top of you  
You are just too blind to see  
Animal head – you've got one too

My animal head has got the sense  
To get inside out of the storm  
My animal head gets outta the rain  
Goes to where it's safe and warm

**(Chorus 2)**

Animal head doesn't think  
Animal head just reacts  
Not impressed by multiplication  
Doesn't care about your facts

**(Chorus 1)**

I have got an animal head  
So you had better watch your lip  
If my head takes over you are dead  
So watch your step – better not slip

I have got an animal head  
Grrrrr
