

Big Faced Woman
(Greb)

I got a woman with a big old face
You can see her head from outer space
Bobbin' and weavin' and jumpin' in time
Keepin' the rhythm with her big behind
I got a woman with a big old face
You can see her head from outer space

My big faced woman she love me true
She don't get on me for what I do
When it comes to lovin' she's got no par
She likes the way I play guitar
My big faced woman she love me true
She don't get on me for what I do

My big faced woman she ain't too tall
She's got big teeth and that ain't all
She's got big hair and big old eyes
She's got big feet and great big thighs
I got a woman with a big old face
You can see her head from outer space
