

Can Somebody Tell Me?
(Greb)

Can somebody tell me about this thing called love?
Is it really sent down from the heavens above?
Or could it be from the devil below?
I don't know
But I think it could be so

Can somebody tell me where love comes from?
Does it only happen when your mind is numb?
Or is it something closer to a need?
Let it bleed
Love's gone to bad seed

Love is something I just can't understand
If you really need it love's not on demand
And when you find it sometimes it don't show
But when love goes you will always know

Can somebody tell me about this thing called love?
Is it really sent down from the heavens above?
Or could it be from the devil below?
I don't know
But I think it could be so
But I think it could be so
But I think it could be so
