

**Can You Win?**  
**(G. Meneses)**

Stony faces, desperate places, leavin' traces of I don't know what  
On the streets and between the sheets and meet and greets and I don't know what  
Can you take me, not forsake me? Don't you fake me or I don't know what  
Are you in?  
Can you win?

Talkin' bolder, over the shoulder, getting older and I don't know what  
Livin' sleazy, eatin' greasy, extra cheesy and I don't know what  
On the corner with a boner, just a loner and I don't know what  
Are you in?  
Can you win?

Dirty races, a million faces, kids need braces and I don't know what  
Losin' wages, tearing pages, so outrageous and I don't know what  
Should be dancin', fancy-pantsin', cross-eyed glancin' at I don't know what  
Are you in?  
Can you win?  
Are you in?  
Force a grin?

(Refrain)  
They're beatin' down the doors to see ya  
I'd hate to be ya
