

Damaged
(Greb)

I've been before but not like this
I'm bleeding out of every orifice
I scream bloody murder every time I piss
All I want's some fuckin' tenderness
I've been damaged that much is true
And now I think I want to damage you

I've been damaged / I hurt every day
I've been damaged / More than words can say
D-d-d-damaged / That's a fact
I'm damaged / I'm gonna damage back

I hurt so bad that I'll never get well
I wanna rip my own brain right outta my skull
But I'll gonna get you first and that's not all
I'm gonna dig a hole for you when you fall
I've been damaged that much is true
And now I think I want to damage you

I've been damaged / I think I'm gonna scream
I've been damaged / This is all a dream
D-d-d-damaged / I think I'm gonna cry
I'm damaged / First I'm gonna make you die

I think I'll go out and get myself a gun
But a big Bowie knife might be more fun
If I were you I'd live my life on the run
'Cause if I don't get you I'm gonna get your son
I've been damaged that much is true
And now I think I want to damage you
