

Driving
(Greb)

Life is a highway and a long song
If you thought it was easy, then you thought wrong
Life is a road filled with misery and pain
All you can do is stay in your lane
Don't look in the mirror, forget the past
Foot to the floor, step on the gas
Don't take no detour, don't take no turn
Open her up and let the gas burn

There is no reason to ever change course
If things get in the way, time to use force
Don't ask no questions, don't tell no lies
There ain't no time for long goodbyes
Stay on your side of the dotted line
Eyes on the road and you'll do fine
Crank up the tunes, crank 'em up real loud
Don't have much else might as well be proud

Driving

Ain't no rest area, no pit stop
Ain't no such thing as a good cop
Got no where to go, don't know where you've been
But stopping this now would be a sin
Life is a road filled with misery and pain
All you can do is stay in your own lane
Life is a highway and a long song
If you thought it was easy, then you thought wrong
