

Hoochie Koochie
(Greb)

I went to the doctor
To ask 'bout how I feel
He ran him some tests
To find out what's the deal
He said, "Get you outside
"And breathe you some air
"Go up on a mountain
"To the ocean, I don't care."

I went to the country
When I come back to town
I went to the doctor
To see what he found
He said, "You got a problem
"Deep inside of you
"The cause of your problem
"Is you got the hoochie koo
"The hoochie koo is inside you
"Of that there's no doubt
"The hoochie koo is inside you
"And it's got to come out.
"But I ain't got no drugs
"I ain't got no cure
"You got to get down and boogie
"That is for sure."

So now I boogie every morning
I boogie twice before bed
I'm just following doctor's orders
I'm just doing what he said.
When the hoochie koo is inside you
You know it's got to come out
You've got to get down and boogie
Of that there's no doubt.
