

## **Katrina**

You blew into town  
But you didn't blow me  
You were so wet  
As wet as the sea

You covered the levees  
You covered my face  
You were so salty  
And fishy to taste

Katrina Katrina  
You flooded my home  
They had to move me  
To the Super Dome

You hurt me and left me  
You left me to die  
Ravaged and lonely  
And empty inside

Katrina Katrina  
Where did you go?  
Salty vagina  
You've taken my soul
