the machine humming quietly
dreaming of storms life
skies open rain down
the face weeping wet
green is forward thinking
dreams summer breathing anew
crack again dropping splashes
grass is dripping joy

the machine humming quietly	green is forward thinking
dreaming of storms life	dreams summer breathing anew
skies open rain down	crack again dropping splashes
the face weeping wet	grass is dripping joy

the green machine is humming forward quietly thinking
dreaming dreams of summer storms breathing life anew
skies crack open again rain dropping down splashes
the grass face is weeping dripping wet joy
