

**Psalm 5.1**  
**(Greb)**

Thank you God for the dinosaurs  
'Cause without them we couldn't drive our cars  
Praise be to Jesus for HIV  
There're fewer brown babies because of thee

Glory to God for the hurricanes  
There're much more impressive than regular rain  
Hail to the Highest for tsunami  
It looked really scary from what I saw on TV

(Chorus)  
The proof is all around of intelligent design  
If we want to be saved we just kiss your behind  
It's like havin' a Big Daddy living on a cloud  
Just remember: thinkin' too much is not allowed

Thanks Heavenly Father for death and pain  
We've made wonderful use of the very big brain  
Thanks for babies with birth defects  
Looking at them make me want to swear off sex

Thanks for asteroids that cross our path  
We could tell when they'll hit if we just do the math  
Thanks Big Idea for massive earthquakes  
And for the great tip about not talking to snakes

(Chorus)

Thank you Lord for killer disease  
Third world countries really must not please  
We're in your image I can tell  
I know sometimes I also get jealous as hell

Some must suffer though we don't know why  
If we learn something from it, it's right they should die  
Some of your rules we choose to ignore  
I can buy unclean animals at they grocery store

(Chorus)
