

## **Suicidal Rabbits**

**(Greb)**

You've got to be careful  
While driving at night  
Of suicidal rabbits that come to the light  
They stand by the road  
In rodent display  
And when you get close they get in your way  
They don't care if they live or they die  
Sometimes they'll stare and watch you drive by  
Why?

It could be a hare  
It might be a bunny  
But their flea-bitten pelts aren't worth any money  
Nocturnal creatures  
Watch in disgust  
As they get ground into dead rabbit dust  
They're not too bright and they don't have a clue  
One day they might come running at you  
Too!

I know it sounds strange  
And a little bit queer  
But just as deranged are suicidal deer  
They're like the rabbits  
But much much worse  
Before they die they want to get you first  
Watch where you go and watch what you say  
I just want you to know you might see one today  
Hey!
