

**The Load**  
**(Greb)**

Carry the load on down  
Carry the load on down  
Carry the load on down  
Carry the load on down

Nothing means nothing if you don't know nothing  
Something needs something if its gonna mean something  
Relativity in space and time  
Creativity in thought and mind  
Action  
Reaction  
You live and then die

Having a lovely time wish you were here  
Don't think thoughts you've nothing to fear  
Experience teaches memory fades  
Panic cry reaches to be saved  
Exception  
Deception  
You live and then die

Carry the load on down  
Carry the load on down  
Carry the load on down  
Carry the load on down
