

Trouble
(Arm. Meneses)

Everyday trouble knocks upon my door
I usually meet it face down on the floor
Life's frustrations cooking my eggs for me
My will's negation is as plain as it can be

Trouble trouble trouble, trouble with me
Trouble trouble trouble, trouble with me

Humiliation comes for drinks at ten
Been picking my bones clean since way back when
Got to get it together for the daily try
Maybe wait for a better shot in the by and by

I can't hit my stride
Life's been one long dangerous slide
Trouble trouble trouble, trouble with me
Trouble trouble trouble, trouble with me

Fear rides my shoulder out stalking the night
Holes in my new shoes my life don't fit me right
Trouble on a budget mine's a truck-sized order
Misery told me it's much cheaper near the border

I can't hit my stride
Life's been one long dangerous slide
Trouble trouble trouble, trouble with me
Trouble trouble trouble, trouble with me

Fear rides my shoulder out stalking the night
Holes in my new shoes my life don't fit me right
Trouble on a budget mine's a truck-sized order
Misery told me it's much cheaper near the border

I can't hit my stride
Life's been one long dangerous slide
Trouble trouble trouble, trouble with me
Trouble trouble trouble, trouble with me
