Ugly Stick
(Greb)

Tell me something, baby, tell it to me quick
Who's been hitting on you with an ugly stick
Your face would frighten children, set dogs to bark
You're the last person I'd want to meet in the dark
Stay outta my way, babe, you're making me sick

Get tired of seeing you each and every day
Don't ever give you any reason to stay
Mean to you , baby, but you don't get the hint
I'll only be happy after you get
Do me a favor, babe, and just go away

Is that you, babe, I'd hoped I was wrong
I was hoping I'd wake up and you'd be gone
Tell me something, baby, why are you here?
'Specially since I made it plain I don't want you near
You better leave, baby, by the end of this song

Tell me something, baby, tell it to me quick
Who's been hitting on you with an ugly stick
Your face would frighten children, set dogs to bark
You're the last person I'd want to meet in the dark
Stay outta my way, babe, you're making me sick
